The Dell Technologies Advantage

One-stop-shop and best-of-breed

Modern Workplace

- Most reliable PCs[1]
- World's #1 monitors[2]
- Most manageable & secure commercial PCs[3]

Modern Data Center

- #1 Servers[4]
- #1 Storage[5]
- #1 Purpose-Built Backup Appliances[6]

Artificial Intelligence

- World's broadest AI solutions[8]
- Dell AI Factory trusted by 4,500+ customers
- Proven end-to-end AI services methodology

Cybersecurity/Resilience: End-to-end security by design

Accelerate Outcomes: 60,000+ Dell and partner service experts unlocking the full value of your technology

Our purpose
To create technologies that drive human progress

Our strategy
Leverage our strengths to extend our leadership and capture new growth

Our vision
Be the most essential technology partner

Leading End-to-end Solutions[1]

#1

Client Business
Workstations
PC Monitors
High-End Gaming

Servers
Storage
Purpose-Built Backup Appliances
AI Infrastructure

Industry's Largest GTM Engine

Extensive direct salesforce

Broad global ecosystem of partners

Modern online & consumption experiences

DELL Technologies

Unique operating model

Industry-Leading Supply Chain

Automated and AI-driven

Resilient, agile, sustainable at global scale

Global distribution and logistics centers

Unmatched Global Services

Global footprint of AI-enhanced services & support

Proven expertise to drive transformative outcomes

End-to-end portfolio spanning entire solution lifecycle

Innovation + Culture + Customer-Centricity

Client PC & upsell revenue statistic calculated by Dell Technologies primarily by utilizing other PC OEMs' financial public filings, as of Q4 FY26; Workstations (Units) - IDC WW Quarterly Workstation Tracker CY25Q4 using data for 4Q25; PC Monitors (Units) - IDC WW Quarterly Monitor Tracker CY25Q3 using data for 3Q25; High-End Gaming (Units) - IDC WW Quarterly Gaming Tracker, CY25Q4, $1,500+ price band; Server (Revenue) - IDC WW Quarterly Server Tracker CY25Q3 using data for 3Q25; External Storage (Revenue) - IDC WW Quarterly Enterprise Storage Systems Tracker CY25Q3 using data for 3Q25; PBBA (Revenue) – IDC WW Purpose-Built Backup Appliance (PBBA) CY25Q3 using data for 3Q25; AI Infrastructure (Revenue) - IDC Semiannual Artificial Intelligence Infrastructure Tracker, 2025H1 (Oct 2025).

Modernizing your workplace can't wait

Top challenges IT leaders are facing:

- **Rising user expectations**
- **Growing security concerns & IT complexity**
- **Increasing pressure to do more with less**

DELL Technologies

AIRSPEEDER

Revolutionizing mobility with innovative technology

Accelerates design cycles 5x with cutting-edge technology integration.

Delivers 75% lighter and 2x stronger components with generative AI design.

Enhances safety protocols through advanced data insights and real-time monitoring systems.

"Using Pro Max and generative AI has transformed how we design. We achieved a week-long cycle from component design to field testing—a pace unheard of in aviation."

Jack Withinshaw
Co-Founder and Chief Commercial Officer, Airspeeder

Powered by:

Dell Pro Max high performance AI PCs with Intel® Core™ Ultra processors and Intel vPro®

Dell PowerEdge XR-Series servers with Intel® Xeon® Scalable processors

Data center modernization is ongoing, not a point in time

Realities facing today's IT leaders:

- **AI-driven workloads**
- **Evolving security threats**
- **Expanding cloud & edge environments**
- **Cost & efficiency pressures**
- **Continuous innovation**

DELL Technologies

Mizzou

Achieving academic excellence with modern IT

Reduced data center footprint by up to 50%, lowering energy costs & freeing valuable space

Achieved sub-millisecond latency and zero complaints, enabling IT to innovate confidently

Improved application performance for 30K+ students, faculty & staff across critical systems

"PowerStore's speed and reliability mean we spend less time fixing and more time innovating."

Tracy McCubbin
Senior Manager of IT, The University of Missouri

Why organizations struggling to realize measurable impact from AI?

- **Pilot projects stalling without clear goals**
- **Workload, data and security challenges**
- **Existing infrastructure hindering innovation**
- **Lack of AI tools slowing deployment**
- **Skills gaps preventing AI adoption & success**

DELL Technologies

The Dell AI advantage

Leverage the **world's broadest AI portfolio**[1] and an open partner ecosystem

Gain a proven path from pilot to production with **the Dell AI Factory**

Achieve **measurable ROI** with expert guidance at every step

The Dell difference: AI expertise with 4,500+ organizations

SNS Network

Empowering sovereign AI infrastructure globally

- Launched AI services up to 2x faster with a validated solution
- Improved processing speeds for data-intensive AI models by 20%
- Built and AI Ecosystem for startups, enterprises and the public across Malaysia

Deloitte

Enabling secure, on-device AI for modern work

- Achieved 50% faster AI deployment and proof-of-concept timelines
- Strengthened security and compliance with on-device AI
- Reduced cloud reliance and expenses

Lowe's

Transforming retail customer and employee experiences

- 8,000 AI-assisted code reviews weekly
- Achieved 98% neutral-positive feedback for AI virtual advisor
- Delivered AI-enabled tools to 300,000 associates

Cybersecurity and resilience continue to evolve and become more complex.

Realities facing today's IT leaders:

- **AI-driven cyber threats**
- **Post-quantum cryptography**
- **Securing the supply chain**
- **Chip shortage**
- **Board level responsibility**

DELL Technologies

Copyright © Dell Inc. All Rights Reserved.

Cybersecurity and resilience maturity enables agility

1 Secure by Design

- Built-In
- Built-On
- Built-With

2 Cybersecurity Practice Areas

- Reduce The Attack Surface
- Detect & Respond To Cyber Threats
- Recover From A Cyberattack

3 Cybersecurity and Resilience at Scale

- Global security services
- Extensive partner ecosystem
- Forward-looking investments (post-quantum cryptography and secure AI)

DELL Technologies

How customers advance cybersecurity maturity with Dell

PURSHEALTH

THE UNIVERSITY OF TENNESSEE SYSTEM

ARAUJO DROGARIA DRUGSTORE

Reduce the attack surface

- Built a Dell-powered SOC handling **~100,000 security events per second**, protecting AI-driven healthcare across 100+ hospitals & 300+ clinics
- **Unified security posture** to safeguard sensitive patient data, IP & AI models while enabling rapid innovation

Detect and respond to cyber threats

- **Secured 37,000 endpoints** & a multi-campus network with Dell Managed Detection and Response and 24x7 SOC coverage
- **Improved cyber readiness** with unified XDR-based monitoring, threat hunting & guided remediation without building their own SOC

Recover from a cyberattack

- **Created an end-to-end cyber-resilient architecture** with Dell PowerStore and PowerProtect
- **Reduced recovery times by 75–80% & safeguarded against $2–3M in daily revenue loss** by keeping 350+ pharmacy locations online, even during cyber threats

DELL Technologies

What's holding organizations back from achieving the full potential of your IT?

- **Aligning business and IT objectives**
- **Adapting to rapid technology changes**
- **Balancing innovation and ongoing operations**
- **Bridging gaps in skills and expertise**

DELL Technologies

Copyright © Dell Inc. All Rights Reserved.

Accelerate outcomes with Dell Services

	Strategize	Implement	Adopt	Scale
Goals	**Gain consensus on strategy and objectives**	**Fully integrate solutions**	**Accelerate time-to-value**	**Simplify operations and enable innovation**
Why Dell	**Proven experience aligning business and IT**	**Extensive ecosystem integration**	**End-to-end expertise and knowledge transfer**	**Global footprint of AI-enhanced capabilities**

DELL Technologies

Dell Services unlock the full potential of technology

Transforming the workplace for frontline impact

- **Enabled fully engaged workforce** by modernizing collaboration with Dell services and Microsoft-based solutions.
- **Improved communication and efficiency** through services-led design and implementation of secure, cloud-based productivity tools.
- **Supported mission delivery at scale** with ongoing guidance on adoption and experience measurement for frontline and office staff.

Scaling hybrid multicloud for data-driven experiences

- **Expanded hybrid multicloud architecture** by building out private cloud with deployment services
- **Delivered more tailored member experiences for 1.8B+ users** by running data and AI workloads on Dell deployed cloud infrastructure.
- **Achieved cost effective, secure growth** through optimized hybrid multicloud solutions with deployment and support services

Harnessing the promise of AI through expert collaboration

- **Shortened time to value** for AI initiatives using the Dell AI Factory with NVIDIA.
- **Addressed cost concerns, scalability issues and technical expertise gaps** by evolving Worley's AI strategy.
- **Enabled continuous optimization and operational efficiency** through workshops, knowledge transfers and managed services.
